MEMORANDUM FOR: DIRECTOR OF TRAINING

SUBJECT: Proposal for three-year program in development of area and language specialists.

I certainly concur in the general principle and method proposed for the development of long-range assets. While there may be a detailed requirements analysis behind the trainee figures mentioned here, there is nothing in this file to show such a basis. Consequently, I have no opinion whether these figures are too high, too low, or just right to meet expected specialist needs. It is my suggestion, therefore, that the general program be agreed upon, and that the number be determined by detailed projection of the requirements which are needed to meet DD/A and DD/P [redacted] personnel plans. ? 25X1
